Specialty Courses! Students taking **Film Studies** will learn how to critically view film by learning about how a director creates art through camera angles, costumes, make-up, editing, sound, and lighting. Finally, **Grammar & Usage** is designed to help students learn the eight different parts of speech and how to use them properly in writing, as well as find out how to recognize and correct common usage errors. Grammar 2 will help prepare students for the **Writing and Language** section of the SAT. We developed the **Digital Literacy** class to help students navigate today's digital world through reading, writing, technical, and critical thinking skills. The **AMC8** is a multiple-choice exam in middle school mathematics designed to increase the development of problem-solving skills in students. We are excited to announce that this course will be taught by renowned AMC teacher, Dr. James Zhu. ***AMC8 will only be available Session 1 as part of our PM Camp from 1:30-3:00pm. **We will be offering both a refresher Algebra 1 class as well as an enrichment Algebra 1 class. Please contact us for more details!**

Extended Care: Extended care is available for both AM and PM campers. Students attending PM camp may stay until 5:30pm. Camp assistants are available for homework help if needed.
